PURPOSE OF COURSE

Depends on the specific subject.

EDUCATIONAL OBJECTIVES

Depends on the specific subject.

COURSE CALENDAR

This course meets for a minimum of 12.5 lecture contact hours during the semester. Course work will vary depending on the specific subject. Students have significant weekly assignments. Students are expected to complete homework/programming assignments, projects with presentations, and 2-3 periodic exams in addition to the final exam. Students are expected to prepare for any class assignments or quizzes over the material covered in class or in the reading material. Successful completion of these activities requires at a minimum two additional hours of outside of classroom work each week.
